Warning DON'T USE TRACKPADS THEY WILL BREAK Other than that, it's fun. Just play it. I have never had so much fun.. One of the best VR games. Classic.. Not a half bad game kinda difficult if you are going for all achievements but other then that a very well made game with no bugs as far as i can tell after getting 100 percent of the challenges and achievements in

it.. I love this game on my vive ever since i got my vive i would think to myself i wonder what surgeon sim would be like it was everything i wanted it to be even the new alien transplant I would reccomend as a must buy for a vive user. Grabing tools barely works, no tutorial, poorly explains things.. It works well for me. But I had my lighthouses for vive properly set up. There are still some hand errors but its pretty good playable.
